

SPEAKERS SYMPOSIUM P3VENTI 2024

Wednesday 28 February 2024

Binnenklimaat Nederland, Zoetermeer

Plenary

Benjamin Jones

[Benjamin Jones](#) is Associate Professor at the Department of Architecture and Built Environment, University of Nottingham. The focus of Benjamin's work is on measurement and modelling approaches to the indoor environment that can inform policies to create low-carbon and healthy building stocks. He is particularly interested in the energy efficient ventilation of buildings and its relationship with indoor air quality and occupant health. Benjamin supported the pandemic responses of the UK and Chilean governments and worked on ASHRAE Standard 241 that aims to Control Infectious Aerosols in buildings.

Francine L'Ortye

[Drs. F.L.H.M. \(Francine\) L'Ortye](#) is currently Program Director Pandemic Preparedness Public Health. Prior to that, she was a member of the Management Team for Crisis Management and Infectious Diseases and acting Director of Public Health at the Ministry of Health, Welfare and Sport, Program Manager for the Environment and Planning Act at the Ministry of the Interior and Kingdom Relations and Head of Research, Projects and Grant Acquisition at the Municipality of The Hague. Previously, she held various management positions at the Ministry of Education, Culture and Science. Francine L'Ortye studied Legal Administrative Sciences at the Catholic University of Brabant.

[Presentation of Francine](#).

Roberto Traversari

[Roberto Traversari](#) is a Researcher/Consultant at TNO Buildings & Energy Systems. He will facilitate a workshop on [creating an optimal form of action perspective](#).

[Presentation of Roberto and input group discussion](#).

Frans Koene

[Frans Koene](#) is Project manager - renewable energy at TNO. He will deliver a presentation on the ventilation systems in long term care buildings with Annemarie Weersink.

[Presentation of Frans.](#)

Robert Bezemer

[Robert Bezemer](#) is Project manager building innovations at TNO. He will give a presentation on the simulation of indoor exposure to pathogens with Marcel Loomans.

[Presentation of Robert.](#)

Marcel Loomans

[Marcel Loomans](#) is Associate Professor - Indoor Environmental Quality at IEQ. He will give an inspiring talk about the simulation of indoor exposure to pathogens with Robert Bezemer.

[Presentation of Marcel.](#)

Norman Egter van Wissekerke

[Norman Egter van Wissekerke](#) is Programma lead Healthcare assets at TNO Buildings & Energy Systems. He will deliver a presentation on interpersonal proximity & contact - Case studies in long term care.

[Presentation of Norman.](#)

Luc Hornstra

[Luc Hornstra](#) is Project manager - microbiology at TNO. He will give an inspiring talk about the airborne transmission of viruses.

[Presentation of Luc.](#)

Rinus Elsman

[Rinus Elsman](#) is Consultant - transitions and innovation in the built environment at TNO Vector. He will give a presentation on decision making under uncertainty during the pandemic with Aleksandrina Skvortsova.

Aleksandrina Skvortsova

[Aleksandrina Skvortsova](#) is a Health psychology researcher at Leiden University. She will give an inspiring talk about decision making under uncertainty during the pandemic with Rinus Elsman. Aleksandrina will also conduct a [workshop](#) on this topic with Rowie Huijbregts.

[Presentation of Aleksandrina and Rinus.](#)
